Dear Mr. Craig:

**Re: Access to Information Request
WCB File FOI-2013-01F**

Your Access to Information Request was received in our offices on February 12, 2013. In that request you were seeking the following:

Please provide documentation on the FINEOS upgrade – specifically the original budget, current budget and expected total cost. Also please provide documentation on how employees or the firm were held accountable (documentation over the last five years).

I requested further clarification on what information you were seeking relating to those “held accountable” and you advised that:

“held accountable” would refer to what happened as a result of cost overruns with the project. Eg. Was anyone suspended? Demoted? Dismissed? Pay cut? Etc.

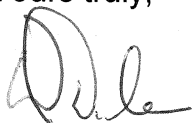

As I am sure you are aware the WCB operates like an insurance company. It protects registered employers from lawsuits when a workplace injury happens. It provides guaranteed benefits and programs to injured workers in industries covered by the Act. All costs, claims and administration, are funded entirely by premiums paid by employers in covered industries.

I have contacted the Board’s Chief Financial Officer and have been provided with the attached information in response to your request concerning budgeted and actual costs of the completed claims management system.

Regarding the second part of your request I have been advised that no staff were demoted, suspended, received pay cuts or were dismissed.

I trust you will find the foregoing satisfactory.

Yours truly,

A handwritten signature in black ink, appearing to read "Wayne Dale". The signature is cursive and somewhat stylized, with a large initial "W" and "D".
