AB: REVERSE THE TAX HIKES

To the Premier of Alberta:

Albertans pay enough taxes already and don't need to be paying for a new health levy, higher income taxes, insurance taxes, gas taxes, liquor taxes or any of the other taxes and fees raised in 2015.

With Alberta spending 11% more, per person, than they spend in neighbouring British Columbia, the Alberta government has a spending problem, not a revenue problem. You need to cut wasteful spending and balance the budget without digging deeper into our pockets.

We the undersigned demand you reverse the 2015 tax hikes.
