

Petition

Stop the Victoria Gas Tax Hike!

To the Minister of Transportation,

Governments in the Capital Regional District already collect 41 cents/L in gas tax, totaling more than \$135 million every year. We reject the claim that more gas taxes are necessary – we believe we contribute more than enough to the regional transportation system.

We request you reject the Victoria Regional Transit Commission’s request to hike gas taxes two cents per litre and instead order local governments to reprioritize spending.
