

To Premier Christy Clark and the Finance Minister:

British Columbia’s budget deficits and debt financing have pushed provincial debt to an all-time record high.

It’s time you replaced debt management with debt elimination. Your commitment to balanced budgets is a good start, but the debt is still growing every second. We need to cut waste, bring in debt repayment legislation and reassess the projects causing the debt to grow.

We, the undersigned, demand the B.C. government balance the budget and begin eliminating the provincial debt. We want a Debt-Free B.C.!
