Hi Colin -

Here are Evan's responses to your survey.

1. Yes
2. Yes
3. Comment: I am open to considering all creative solutions to taxation in this city, including a discussion of a property tax cap. We pay a lot of property taxes, especially in Charleswood-Tuxedo-Whyte Ridge, and tax increases that unfairly burden our residents must be a last resort.
4. Comment: I agree its important to evaluate city spending to ensure that the priorities that are important to our residents, which include road repair as well as sewer and infrastructure upgrades, are addressed.
5. Comment: I am open to getting more information on this issue and discussing it with the Canadian Taxpayers Federation and other interested parties once elected.
6. Comment: I am open to getting more information on this issue and discussing it with the Canadian Taxpayers Federation and other interested parties once elected.

Thanks,
