Good afternoon Jasmine,

Hope all is well. My colleague Jeffrey Jenkins asked if I could connect back with you concerning some follow-up questions you had below related to your recent access request with the Ministry of Education, our Ministry Log # EDU-200031.

Below please find some additional information which may help to clarify. Please feel free to contact me again with any questions:

- Does this number (\$103,926) include total salary + benefits + employer pension contributions? In the response it says just salary + benefits, so I'm wondering if your team lumped pension in with benefits or if pension was excluded

The \$103,926 does not include employer pension contributions.

- Also, would it be possible to separate the two numbers for me so that I can see what the average salary is alone (and then add on the benefits + pension)

In 2018-19, the total compensation funding for an average OSSTF teacher was approximately \$114,157 made up of \$92,912 in funded salary + \$9,700 for statutory and other benefits funding + \$1,314 for life health dental benefits funding + \$10,231 for pension contributions.

Also, just to note the amount provided is for 1 OSSTF member for one working day.

Hope this is helpful. Thank you.

Cristina

Subject: RE: FOI # 200031

Hi Jeffrey,

I hope your week is going well!

I have a couple questions about the attached FOI response # 200031 that I'm hoping you can help me with.

- Does this number (\$103,926) include total salary + benefits + employer pension contributions? In the response it says just salary + benefits, so I'm wondering if your team lumped pension in with benefits or if pension was excluded
- Also, would it be possible to separate the two numbers for me so that I can see what the average salary is alone (and then add on the benefits + pension)?

Again, thanks so much for all your help - much appreciated!!

Cheers,

Jasmine Moulton
