

## Scrap the Federal Carbon Tax

## To Prime Minister Justin Trudeau

Your government's carbon tax is an unfair hit to Canadian families, businesses and rural communities.

The carbon tax increases the price of fuel, food and clothing, and will mean lost jobs and bankrupt businesses.

The carbon tax will hit Canadians particularly hard, where driving is a necessity.

Our economy is fragile and the last thing it needs is to pay more tax.

We the undersigned call on the Government of Canada to scrap the federal carbon tax.
