Balance the Federal Budget

To Prime Minister Justin Trudeau and Finance Minister Bill Morneau:

The federal government has run deficits in 37 of the last 50 years, which has resulted in a federal debt of over \$637 billion. This debt costs Canadians \$24.7 billion dollars per year in interest payments alone.

We the undersigned call on your government to return to balanced budgets as soon as possible and put forward a concrete plan to begin paying off our federal debt.
