

To Prime Minister Justin Trudeau and Finance Minister Bill Morneau:

Minister Morneau's proposals to change how business taxes apply to Canadian small businesses will mean a major tax hike for them.

Our tax system is already too complex and these proposals will only make things worse, not better.

Entrepreneurship and hard work should be encouraged and rewarded by government, not vilified and punished.

We the undersigned call on your government to withdraw its proposals, and instead begin long-term consultations for real tax reform.
