Investigate Manitoba Hydro

To Premier Brian Pallister:

There are huge problems at Manitoba Hydro.

Hydro now acknowledges its runaway expansion plans have turned into billion-dollar mistakes. Its debt is projected to double to $25 billion within a few years. Rates were already going up by nearly 4% per year and now they'll be rising even faster.

Manitobans deserve answers. They deserve to know what went wrong and who is specifically responsible. They also deserve to know if Hydro has learned the lessons it needs to learn to make sure this never happens again.

We the undersigned call on the Manitoba government to initiate an independent inquiry regarding Manitoba Hydro.
