Please use this as my answer to your survey:

1. Yes to complete disclosure world wide.

2. Yes Was the traffic study for the Fire Hall at 1705 Portage Avenue ever released?

3. No Although I like this goal. However, our infrastructure is so bad that this goal may be unattainable. I do advocate the elimination of all perks including bus benches, co sponsoring Federal picnics, advertising and luncheons.

4. Yes In the next 4 years we should have only 1 ongoing Fire Hall Construction Project at any given time.

5. Yes

6. No. It is a good idea but would be difficult to administer.
