

Petition ATCON Accountability

To the Premier of New Brunswick:

Taxpayers of New Brunswick lost \$70 million in the ATCON fiasco. The province's Auditor General says that the loss was "unprecedented" and she could find "no rational" for giving taxpayers money to the company.

Despite the AG's findings that not a single member of the government has been held accountable for the tens of millions lost. In fact, six cabinet ministers who originally approved giving ATCON money have been re-appointed back to cabinet.

We the undersigned demand accountability for the lost millions in the ATCON fiasco and remove the six cabinet ministers responsible for ATCON from your cabinet.
