Aboriginal Taxation Agreements

All New Brunswickers should be treated equally under the tax system.

The government of New Brunswick has given a special tax deal to all aboriginal businesses in the province, a deal that says they don't have to pay 95% of the provincial portion of the HST, gas tax or tobacco tax. They charge it and then pocket the money.

This is unfair and unjust to all those small and medium size businesses they compete with who don't get the same deal.

We, the undersigned, demand the government of New Brunswick cancel all special tax deals for aboriginal businesses and treat all New Brunswickers equally.
