

To New Brunswick's political party leaders:

MLA's receive a pension plan that is far richer than anything taxpaying New Brunswickers receive. For every dollar contributed by an MLA, taxpayers contribute sixteen dollars.

This kind of pension program is far too expensive for taxpayers to support, at a time when the government is running huge deficits.

We the undersigned demand that the current MLA pension program be scrapped and replaced with an RRSP defined contribution plan in which taxpayers contribute no more then \$1 for every \$1 contributed by an MLA.
