## No Pop Tax in Newfoundland

## To Newfoundland and Labrador Finance Minister:

The Province of Newfoundland and Labrador has raised just about every tax in the province in its last budget. Income tax, gas tax and sales taxes have all gone up and when the government ran out of taxes to raise they created a new levy to grab more from taxpayers' wallets.

As if all these tax increases weren't enough, now some are calling for a new tax on pop and other drinks.

Enough is Enough.
