

To Members of the Legislative Assembly of Ontario:

Kathleen Wynne is planning a 1.9% payroll tax for Ontario employees and a 1.9% tax for employers because she believes her government knows best when it comes to how to save for retirement. The Ontario Retirement Pension Plan payroll tax will mean less money for Ontario families already struggling to make ends meet, and for Ontario small businesses trying to stay afloat.

**We the undersigned, call on the government of Ontario to get their hands out of the pockets of Ontario families and businesses, and end plans for the Ontario Retirement Pension Plan.**
