

Each of the stickers on the kit bags cost \$0.2017. The data below shows the number of kits given out at our Needle Exchange and includes crack smoking kits, crystal meth kits, foil kits, and injection kits. This does not include those given out through outreach, van or other programs.”

Using the # kits distributed per year and cost per sticker I have drafted this table to estimate cost

Year	# kits	Cost (1 stickers on the kit bags costs \$0.2017 x # kits)
2019	Note: The system for data collection was switched over so I am not able to pull the numbers currently. Will need to access the old system.	
2020	26,837	\$5,413.02
2021	46,900	\$9,459.73
2022	58,053	\$11,709.29
2023 (Jan 1- July 13)	34,602	\$ 6,979.22
TOTAL (2020-20023 July 13)	166,392	\$ 33,561.27

Hi Jackie
They want to know what they were charged for the last order of 10,000 stickers.

Hi Shlomit,

I am referring you to Jackie Cheung, our procurement specialist.

Jackie, are you able to help Shlomit with her request for a quote below?
I believe the last job done is A2301671.

Thank you,
Desiree

Subject: Past printing costs for stickers

Hi Desiree

I hope yr well. The Works has to answer a request about its expenses from the pubic & one part of the request is:

how much does it cost to print 10,000 of the kit stickers? Here is a sample of one of them. The last time I got them printed was about 3 months ago. Most of them are 3.5" x 3.5" and black + 1 colour.

Thanks!
